

# 407

## Fully Automatic Random Case Gluer

### Random Case Sealing

The Endoline 407 will automatically adjust its settings to close and seal 0201 cases throughout the case size range in any random sequence. The 407 can operate on small, large, lightweight or heavy cases at speeds of 16 cases per minute.

### Compact

The Endoline 407 can help increase factory space as multiple lines can feed into one machine. The 407 is well suited to environments where there is insufficient space for multiple sealers or there are regular case size changes.

### Barcode Reading Scanner

The 407 has barcode scanning technology incorporated, to read the data on the box before it enters the sealing section of the machine so the 407 has time to adjust itself accordingly.

### Low Cost of Ownership

All Endoline's machines are designed for maximum efficiency and productivity thereby reducing the cost of ownership to a minimum. This case sealer comes at a low capital cost and immediate savings can be seen through reduced labour costs and increased packing speeds.

### Servo Drives

While allowing the machine to reach higher speeds the servo drive system permits greater flexibility and control by allowing acceleration and deceleration of the moving heads and side drives through the closing and sealing process.

### Robust Construction

High quality components housed in a robust chassis ensure minimal servicing and enable 24 hour operation. Designed for the rigours of typical end-of-line packaging environments.

# Random Case Sealers

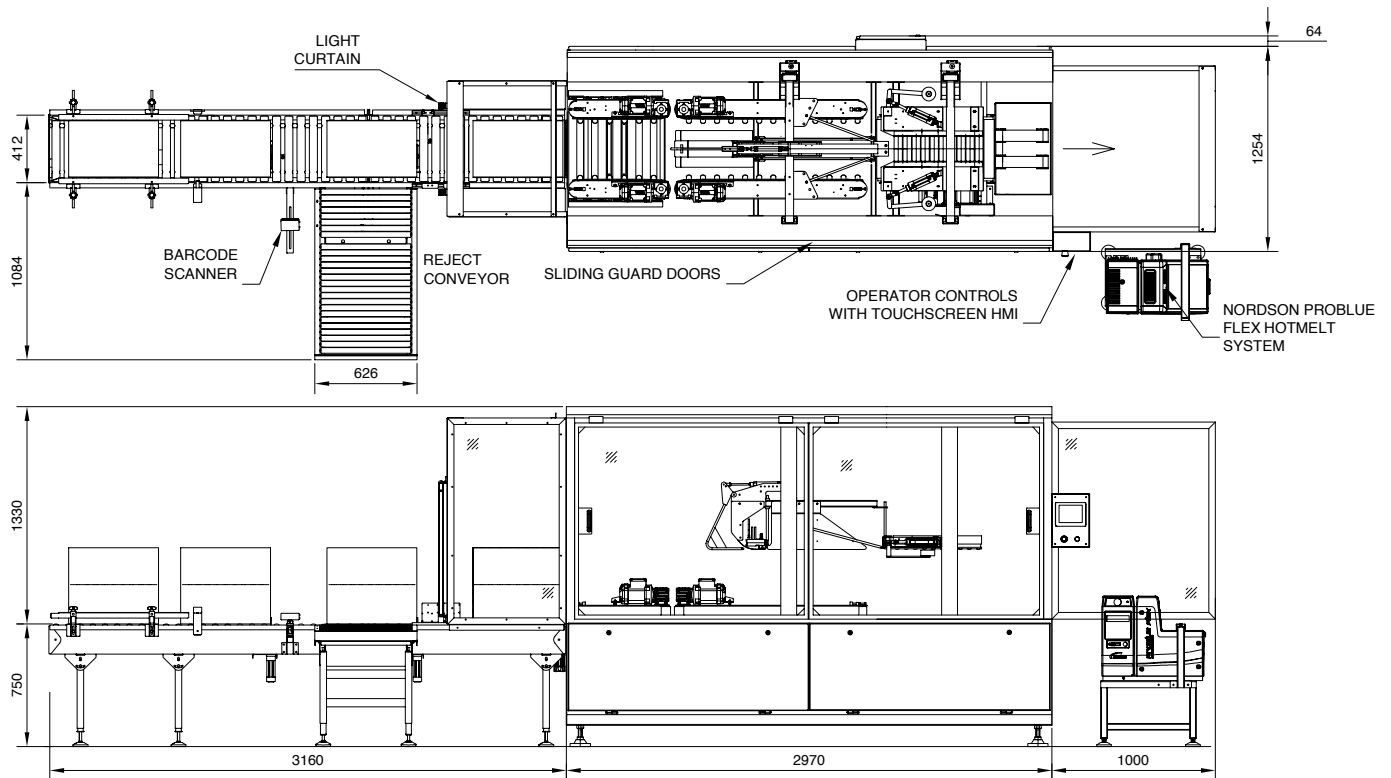

## 407

Fully Automatic  
Random Case Gluer

### Machine includes:

- Glue seals case top and bottom
- Low and no glue sensing
- Barcode Scanning
- Fully interlocked Guards & Safety Circuits

### 407 dimensions shown

### Case Dimensions (mm).

	Length	Width	Height
Maximum	560	350	360
Minimum	300	170	210

### Speed

- up to 16 cases per minute

### Pneumatics

- 80psi (5.5 bar)

### Electrical

- 20A 3P + N + E 415v 50Hz

### Machine Finish

- Mild steel, powder coated white (RAL 9010) or stainless steel

### Glue System

- Nordson Pro-Blue Flex glue. Other glue systems are available on request.

### Note:

- Machine can be modified for cases outside case size range. Please contact Endline to advise.
