

613

Pre-set Fully Automatic Case Sealer

-  **Low Cost of Ownership**
The Endline 613 is designed to give you the best possible value for your investment through maximum productivity with minimal stoppage time for problem-solving or case size changes.
-  **Interchangeable Tapeheads**
The 613 includes tape units which are extremely easy to load into the machine and to remove. The tape units are easy to thread with tape to keep downtime to a minimum. The tape units are also interchangeable for top and bottom offering even more flexibility.
-  **Robust Construction**
High quality components housed in a robust chassis ensure minimal servicing and enable 24 hour operation. All our case tapers are designed for the rigours of typical end-of-line packaging environments.
-  **Ease of Operation**
The 613 has simple mechanical operation and clear access for easy cleaning and maintenance. It is designed to be operator friendly with simple controls and is quick and easy to adjust to case size changes.
-  **Unique spring-loaded side belt driven system**
This ensures that there is no slippage or bunching of cases often found with other systems. This drive mechanism is suitable for both light weight small cases and larger heavier cases.
-  **Extended Warranty**
Two year fully comprehensive warranty for peace of mind and reduced cost of ownership.

613

Pre-set
Fully Automatic
Case Sealer

Options include:
